**Igniting the World of
Environmental Health**

The American Academy of Sanitarians is proud to offer our version of the popular Ignite-style presentation. Each speaker is allotted seven-minutes to present on a specific environmental health topic while their PowerPoint presentation automatically advances every 21 seconds, creating a truly energetic and dynamic session.

This format is designed to keep the presenter on track and attendees engaged and focused. Group discussion will follow, to allow attendees to explore concepts further, and walk away with ideas and tools they can use.
